

**Date:** 3rd April 2026

**TO:**

September 2025 Intake-Department of Agriculture and Environmental Studies  
-Department of Health and Applied Sciences (Including **2025HMND-SEPT**. Nutrition and dietetics class)

**RE: RELOCATION AND REPORTING TO MOIBEN CAMPUS**

The **Legal Notice No. 123 of 2022**, which established the Kenya School of TVET (KSTVET), provides for the establishment of regional campuses.

Following the increased student population at the Main Campus in Nairobi, and pursuant to the directive from the State Department for TVET on the operationalization of Moiben Campus in line with the Government's expansion of TVET institutions, the following decision has been made:

All students in the **September 2025** intake class in the **Department of Agriculture and Environmental Studies** and the **Department of Health and Applied Sciences**, who have been studying at the Main Campus and are currently undertaking **Module II** through online learning, are hereby informed that the two departments will be relocated to Kenya School of TVET Moiben Campus, effective **May 2026**.

Students will proceed to complete **Module III** at Moiben Campus. The reporting date will be **11th May 2026**, and students are therefore advised to make the necessary preparations to report on the stated date.

In the event of any changes to this arrangement, the institution will communicate accordingly.

**Dr Edwin Tarno, PHD, HSC**  
**CHIEF EXECUTIVE OFFICER**
